About Me

I'm a dedicated Full Stack Developer with strong skills in JavaScript, HTML, CSS, React, Java, PHP, and Python. I enjoy building user-friendly, responsive web applications and working on both front-end and back-end development. I'm passionate about coding, solving real-world problems, and continuously improving my skills to stay updated with new technologies.

Skills

Front-End

- Html
- Css
- React

Back-End

- Java
- Python
- PHP

Education

Balakrishna Matric Hr. sec . school

Completed Higher Secondary Education in the Computer Science group at Balakrishna Matric Hr. Sec. School in 2023, where I built a strong foundation in programming and problem-solving

St.Joseph's College of Engineering

I am currently pursuing a degree in Artificial Intelligence and Machine Learning (AML) at St. Joseph's College of Engineering, with an expected graduation in 2027.

Experience

Web Development Intern

RepuNEXT, Velachery

2025-2026

Contributed to the development of scalable web applications as part of a team serving 100k+ users. Gained exposure to microservices architecture and collaborated with senior developers during the project.

Full-stack Intern

Cloud Logic Solution

2025-2026

Designed and developed modern, responsive web interfaces for diverse client projects, ensuring cross-platform compatibility, fast load times, and an intuitive user experience. Focused on performance optimization and clean, maintainable code.

AI & Machine Learning Intern

Polenza (in association with MSME, Govt. of India)

2024-2025

Completed a certified Artificial Intelligence & Machine Learning internship conducted by Polenza, in association with MSME (Govt. of India).

Gained practical knowledge in AI/ML fundamentals through hands-on training and guided mentorship.

Successfully finished the program held at Polenza Skill Training Centre, Chennai.
